

# T650c Countertop

Countertop Hardware | Trinity

## The next-generation countertop commerce solution.

The Verifone® Trinity T650c offers turnkey payment services and reporting. With a large vibrant display, easy screen rotation, and front and rear facing cameras, the T650c provides ease of viewing and operation. And, with end-to-end encryption, merchants don't have to worry about device security.

- Stunning 5.5" touch screen
- 5MP camera ideal for scanning and accepting alternative payment methods in development
- Proprietary "Navigator" feature allows low vision or blind customers to input their PIN independently and securely
- Fewer printer roll changes thanks to larger paper roll
- Security where you need it with Verifone's locked down version of Android
- Utilizes the power of Verifone Cloud Services for secure device management and real-time status updates
