NEW NAVY CASH CARD

REPLACES

OLD NAVY CASH CARD
To all Disbursing Offices and Navy Cash Deputies with P1 Error Codes:

This is a reminder to expedite the repair of Pin Pads with "P1" error codes. As soon as the P1 error is discovered open a case with JPMC NCTS and advise your FLC representative. JPMC may request a Go2Assist session to push the fix or refer the issue to Engility for a Pin Pad replacement. If the Pin Pad is to be replaced, follow instructions provided by Engility to carefully remove the defective Pin Pad, package the device to ensure no damage during shipping then install the replacement device on receipt.

Some recently returned Pin Pads have been improperly packaged and damaged during shipping.

As a reminder; open a case for all defective parts, ensure packaging to prevent further damage to Navy Cash parts and return as soon as possible.

Deleting Postal Merchants from Navy Cash Postal Devices:

Navy Postal has requested Navy cash delete all postal merchants on the POS devices except "POST OFFICE - METERED MAIL". This is required to be done manually to ensure the merchants are not listed in the POS devices.

This is a fleet wide effort that needs your attention before the remaining postal merchants are deleted from the Navy Cash system. You may have received an email from your FLC on topic already.

Please note:

If the Merchants are not removed from the POS devices, then transactions for the deleted Merchants can still be performed. JPMC doesn't have a way to get a confirmation remotely as to whether the Merchants are removed from the POS. The ship needs to confirm once the Merchants are deleted from the POS devices.

JPMC can't prohibit use of the referenced merchants; they must be removed from the POS.
