4.17.6	Daily/Monthly Reconciliation Worksheet.....	4-21

4.1 Background

This chapter of the SOP describes Navy Cash procedures for selected operations in the wardroom, CO, unit commander (flag), CPO, and any other private messes:

NOTES:

1. *The term treasurer used in this chapter refers not only to the private mess treasurer but also individuals that have been properly authorized and appointed as his/her agents.*
2. *A private mess is considered “subsisting” from the general mess when meals consumed in the mess are accounted for and billed to the mess at standard meal prices by the general mess in accordance with NAVSUP Publication 486, Volume 1, Food Service Management – General Messes.*
3. *A private mess is considered “private” when the general mess is reimbursed for the cost of the stores (food) consumed by the private mess on a monthly basis.*
4. *When a private mess collects or expends Navy Cash funds (for any reason) ‘NC’ will be noted in parenthesis in the purpose field on the Record of Collections or Record of Expenditures to denote that the collection/expenditure was made in Navy Cash. This notation is required to distinguish Navy Cash collections/expenditures from actual cash (currency) collections/expenditures for the day during the daily reconciliation process described below.*
5. *In Navy Cash, all dates and times are recorded and reported in Greenwich Mean Time (GMT) (Coordinated Universal Time (UTC)).*

4.2 Planned Maintenance System

Preventive maintenance for the Navy Cash Financial System is covered through the Planned Maintenance System (PMS). PMS information for Navy Cash is available from the ship’s Maintenance and Material Management (3-M) Coordinator. Maintenance Index Page (MIP) number 6541/080-14 applies to Navy Cash. In particular, proper cleaning of the card readers can significantly reduce the incidence of card readers failing to read the Navy Cash card.

4.3 Establishing Private Mess Merchant with Navy Cash Card and Account

4.3.1 Private Mess Navy Cash Merchant

Each private mess is established as a Navy Cash merchant as part of the process of implementing Navy Cash on board the ship.

a. Generally, a private mess treasurer uses a local bank or credit union checking account set up in the name of the private mess to manage operating funds. The mess treasurer provides the Treasury Agent, the Federal Reserve Bank of Boston (FRBB), with the private mess checking account number and ABA Routing number, the account name printed on the checks (e.g., USS Neversail CPO Mess Dues), and whether the checking account is a business or consumer account. JPMC can then transfer funds among the private mess checking account and the private mess merchant Navy Cash card closed-loop and open-loop accounts whenever the private mess treasurer directs a funds transfer.

(1) Food rations (BAS - Basic Allowance for Subsistence) for enlisted personnel assigned to duty in a private mess are commuted (credited) to the mess (known as commuted rations). In the case of the Chiefs Mess, rations for every Chief Petty Officer assigned to the ship/mess are also commuted (credited to the mess). Law expressly forbids using commuted

rations for purposes other than purchasing food. Commingling of commuted rations with funds used for non-food purchases, such as private mess flower and gift funds, is against regulations.

(2) To accommodate this requirement and to maintain separation of funds, two merchant Navy Cash accounts, each with a unique Navy Cash card, can be established for each private mess, one for food purchases (the “food” account) and the other for dues collection and non-food expenses (the “dues” account). For example, the Chiefs Mess is generally established with just a “dues” Navy Cash merchant, and the Wardroom, with both a “food” and “dues” merchant. In the case of the Chiefs Mess, a “food” merchant can always be requested and set up later. When conducting financial transactions using Navy Cash, the mess treasurer must be certain to use the Navy Cash merchant card associated with “food” or “dues” as appropriate.

b. Option to Settle to Bank/Credit Union or Open-Loop Account. The private mess treasurer may choose to settle Navy Cash transactions to the private mess bank or credit union checking account or to the private mess merchant open-loop account. Generally, if most private mess payments are made by check, it is probably better to settle to the bank or credit union account; if most payments are made with the Navy Cash card, it is probably better to settle to the private mess merchant open-loop account. Money can always be transferred among the private mess merchant Navy Cash card closed-loop and open-loop accounts and the bank or credit union checking account.

c. Option to Settle Daily or Weekly. The private mess treasurer may also choose to settle on a daily or a weekly basis. The private mess merchants have been set up to settle on a daily basis to help simplify the reconciliation and settlement process. For merchants who elect to settle on a weekly basis, deposits are initiated using the following schedule: on the 8th, 15th, 22nd, and 28th of each month. The deposit on the 8th of the month will include any transactions that posted on the 29th, 30th, and 31st of the previous month. This slight delay in actual deposits is minor compared to the delay experienced when checks are mailed to a bank or credit union for deposit to the private mess account.

d. Timing of Settlement Transactions. Private mess treasurers must understand that funds settled to bank or credit union accounts ashore are NOT immediately available for expenditure. Navy Cash transactions are sent to the Treasury Agent daily, but deposits are NOT made immediately. Automated Clearance House (ACH) transactions, which Navy Cash uses, are only processed Sunday through Friday at 10:00 PM Eastern Time (8:00 PM on Sunday) by the Federal Reserve System. Transactions will generally be posted to bank or credit union accounts within 48 hours, and funds are normally available the next business day after the transactions are posted. Funds settled to private mess merchant open-loop accounts are available as soon as the end-of-day round trip is completed between ship and shore.

e. Settlement Reports. Merchant settlement reports are produced for all merchants listing all Navy Cash deposits. These shore reports are generated automatically at the completion of each EOD round trip and placed into a shore reports directory by date (see paragraph 8.4.21). A sample report is contained in paragraph 4.17.5. *In Navy Cash, all dates and times are recorded and reported in Greenwich Mean Time (GMT) (Coordinated Universal Time (UTC)).*

4.3.2 Accountable Official Navy Cash Merchant Cards and Accounts.

Navy Cash merchant cards are issued to accountable officials who are authorized to use Navy Cash in an official capacity.

a. The private mess merchant accountable official cards are not for personal use. The personal funds of the private mess treasurers must not be loaded onto the cards. The funds loaded

onto the cards must be limited to money held by the private mess treasurers in their official capacity as accountable officials. The private mess treasurers are responsible and accountable for all funds loaded onto their accountable official cards and may be held pecuniarily liable for the loss or misuse of such funds. All transactions involving funds on Navy Cash accountable official cards shall be reported in appropriate accountability statements in accordance with applicable regulations, policies, and procedures.

b. Accountable Official Enrollment Form. As accountable officials, the private mess treasurers must complete and sign an FS Form 2888, Application Form for U.S. Department of the Treasury Accountable Official Stored Value Card (SVC), prior to being issued a Navy Cash merchant card. A sample form is included at Appendix F, Navy Cash Enrollment Forms. The form is also available on the U.S. Department of the Treasury, Bureau of the Fiscal Service, Navy Cash website (*navycash.gov*).

c. On CVNs, LHAs, and LHDs, because of the higher card limits associated with the Wardroom Mess merchant cards, the accountable official enrollment form for the Wardroom Mess Treasurer must also be signed by the ship's Commanding Officer (CO). A copy of the CO's appointment letter to the Wardroom Mess Treasurer signed by the CO may be attached to the FS Form 2888 in lieu of the CO's signature on the form.

d. Transfer of Responsibility Upon Relief. At turnover, the relieving Mess Treasurer must complete and sign a new FS Form 2888. The relieved and relieving Mess Treasurers must confirm that the account balances (both closed- and open-loop) on the private mess merchant cards are zero or be able to account fully for any funds remaining in the closed-loop and open-loop accounts. The Personal Identification Number (PIN) for the private mess merchant cards must be changed by the relieving Mess Treasurer at turnover.

4.3.3 Private Mess Accountable Official Card Limits

a. Closed-Loop Load and Debit Limits. The standard maximum closed-loop load and debit (payment) limit for Navy Cash merchant Accountable Official cards is \$10,000. On a limited number of ships (CVNs, LHAs, LHDs), for a limited number of Accountable Officials (Disbursing Officers, MWR Officers, Wardroom Mess Treasurers), the closed-loop load and debit limited is \$50,000. These limits may prevent the Wardroom Mess Treasurer from paying the monthly mess or bulk food item invoice or in a single payment. In these situations, the accountable official can elect to make more than one payment with the organization's Navy Cash card or pay the amount with a check drawn on the Wardroom Mess bank or credit union checking account in accordance with existing procedures (in which case Navy Cash is not involved at all).

b. Standard Transfer Limits Between Closed Loop and Open Loop. The following maximum limits have been pre-set on transfers between the closed-loop and open-loop accounts.

(1) On CVNs, LHAs, LHDs. \$50,000 for MWR Officers and Wardroom Mess Treasurers, and \$5,000 for all other Accountable Officials.

(2) On All Other Ships. \$10,000 for MWR Officers and Wardroom Mess Treasurers, and \$2,500 for all other Accountable Officials.

c. Standard ACH Transfer Limit. For merchants who settle to bank or credit union accounts, a \$5,000 daily maximum limit has been pre-set on funds transfers from a bank or credit union account to the closed-loop and/or open-loop accounts.

4.4 Sale of Meals

NOTES:

1. *The treasurer has the option to have guests/visitors pay for meals in advance (when coming aboard), as-they-go (by individual meal), or upon departure from the ship. The treasurer must consider the type of visitor, length of stay, Navy/ship policy, and service capabilities when determining which option is most appropriate.*
2. *Local billing and collection procedures vary among different private messes for different types of guests and visitors, e.g., a distinguished visitor and a contractor technician. Except for replacing the cash aspects of the payment transaction with the Navy Cash card, existing private mess local billing and collection procedures for guests and visitors need not change.*

a. The Point-Of-Sale device (POS) is the card reader and keypad device used to register sales transactions in Navy Cash. On larger ships, with a dedicated office for the mess treasurer, a POS will normally be permanently installed. On smaller ships where a mess treasurer may not have dedicated office space, portable POSs can be operated in the offline mode for sales transactions. When operated in the portable mode, the operator should make sure that the POS has fresh batteries and that additional batteries are readily available.

b. A POS device will be configured for each private mess during Navy Cash implementation. Depending on ship type and LAN capability, the POS can be configured to operate online from the private mess office or offline in the portable mode. When the private mess operates with two Navy Cash merchant accounts, “Food” and “Dues”, to maintain the separation of funds described above, the mess treasurer will be able to indicate “Food” and/or “Dues” as appropriate by selecting the appropriate merchants from the Merchant Selection screen during the process of entering purchase transactions. See Chapter 2 for instructions on operating the POS.

4.4.1 For Mess Members

a. If the private mess is subsisting from the general mess, the treasurer accounts for meals consumed for each mess member and guest and reports daily meal counts to the FSO for inclusion in the daily food service records in accordance with existing procedures.

b. If the mess is private (not subsisting), the treasurer accounts for meals consumed for each mess member and guest in accordance with existing local procedures. Reporting of daily meal counts to the general mess is not required.

c. The treasurer will bill each member and collect the funds at the end of the month (see paragraph 4.5). Each mess bill paid with Navy Cash will be recorded in the Record of Collections in accordance with existing procedure, but with a ‘NC’ parenthetical notation in the purpose field.

4.4.2 For Guests Without Navy Cash Card

For guests (visitors) that do not possess an instant issue or embossed permanent Navy Cash card or are not issued a visitor Navy Cash card, e.g., a mess member sponsors a guest or dependent for a visit to have lunch in the wardroom on his duty day. In this case, the sponsor pays for the meal with a Navy Cash card or the treasurer accepts cash payment from the visitor/guest or the mess provides the meal free to the guest and absorbs the cost.

- a. If the mess absorbs the cost of the guest’s meal, Navy Cash is not involved.

- b. If the treasurer accepts cash payment, existing (normal) cash handling procedures must be followed, and Navy Cash is not involved.
- c. If a mess member sponsors the guest and pays for the meal with a Navy Cash card.
 - (1) The sponsor reports to the treasurer located at the private mess office to purchase the meal.
 - (2) For each meal sale to a guest/visitor, the treasurer records the sale on a NS 1046 and the collection in the Record of Collections, in accordance with existing procedure, noting 'NC' in parenthesis in the purpose field of the entry.
 - (3) The treasurer keys the meal price into a properly logged-in POS device and selects the private mess "food" merchant from the Merchant Selection screen.
 - (4) The sponsor inserts their Navy Cash card into the POS, enters their PIN and presses the "OK" key to complete the transaction.
 - (5) The POS deducts the meal price from the sponsor's Navy Cash card and records the transaction for download to the Navy Cash system at the end of the business day.
 - (6) The guest and sponsor go to the private mess meal line to receive the meal.

4.4.3 For Guests With Navy Cash Card

For guests (visitors) that possess a valid Navy Cash card, e.g., a manufacturer's technical representative staying on board two weeks that is subsisting in the wardroom.

- a. The guest can use their Navy Cash card to purchase meals from the private mess.
- b. The guest reports to the treasurer located at the private mess office to purchase the meal(s).
- c. For each guest, the treasurer records the sale on a NS 1046 and the collection in the Record of Collections, in accordance with existing procedure, noting 'NC' in parenthesis in the purpose field of the entry.
- d. The treasurer keys the meal price into a properly logged-in POS device and selects the private mess "food" merchant from the Merchant Selection screen.
- e. The guest inserts their Navy Cash card into the POS, enters their PIN and presses the "OK" key to complete the transaction.
- f. The POS deducts the meal price from the visitor's Navy Cash card and records the transaction for download to the Navy Cash system at the end of the business day.
- g. The guest goes to the meal line and receives the meal.

4.4.4 For Large Groups

For large groups of visitors, guests and dependents for which it is not feasible to issue instant issue or visitor Navy Cash cards, e.g., a dependent's cruise or tiger cruise on board an aircraft carrier, see paragraph 3.4.3.

4.5 Mess Bill Collection

- a. Whether the subsisting mess is Private or General, the Mess Treasurer or a General Mess representative prepares a mess bill for each mess member according to existing procedure. Discrepancies or disagreements are resolved with the member in accordance with existing procedure. Mess bills must be collected by the 5th day of the month following the month the meals were consumed.

b. Mess members report to the private mess office to pay their mess bill with their Navy Cash cards.

c. For each member, the treasurer records the collection in the Record of Collections, in accordance with existing procedure, noting 'NC' in parenthesis in the purpose field of the entry.

d. The treasurer keys the mess bill amount into a properly logged-in POS. It is important that the treasurer key the applicable amounts separately and select the appropriate private mess "food" and "dues" merchant from the Merchant Selection screens, which will then be processed as one collection from the mess member's Navy Cash card.

e. The mess member inserts their Navy Cash card into the POS and presses "OK" to record and complete the transaction.

f. The Navy Cash system deducts the sale amount from the member's Navy Cash card and records the transaction for download to the Navy Cash system at the end of the business day.

4.6 Commuted Ration Credit to a Private Mess

a. Rations for enlisted personnel assigned to duty in a private/CPO mess and CPOs assigned to a CPO mess are commuted (credited) to the mess. The Disbursing Officer pays the commutation value of their rations to the mess treasurer on a monthly basis. During the Navy Cash prototype, existing (normal) procedure for commuting rations to a private mess will be followed. In a future post prototype Navy Cash version, commuting rations to a private mess may be automated.

b. In accordance with existing procedures, the commuted ration value is calculated and the Disbursing Officer prepares a check payable to the private mess treasurer. The private mess treasurer deposits the check in the appropriate mess checking account (for food purchases) and records the collection in the Record of Collections, in accordance with existing procedure. Because the commuted rations transaction does not involve Navy Cash, 'NC' should not be noted in the purpose field of the Record of Collections entry.

4.7 Refunds

a. Mess bill and mess share refunds and commuted ration rebates are sometimes necessary, e.g., when the treasurer buys back the mess share of a member who is detaching from the ship.

b. When a refund (rebate) is greater than the \$1,000 Navy Cash card limit for individual cardholders, the refund must be made in cash or check. Navy Cash is not involved and existing (normal) procedures will be followed.

c. When a refund (rebate) is less than the \$1,000 Navy Cash card limit for individual cardholders, the refund can be made in Navy Cash.

(1) The treasurer records the refund in the Private Mess Refund Control Log and prepares, signs, and issues a refund chit to the cardholder, with the appropriate "food" or "dues" account annotated on the refund chit. Refund chit and refund control log examples are contained in Chapter 8 of this SOP.

(2) The treasurer also records the refund in the Record of Expenditures in accordance with existing procedures, noting 'NC' in the purpose field of the entry.

(3) The member reports to the disbursing office during normal office hours with his Navy Cash card and presents the refund chit. Disbursing personnel then follow standard Navy Cash procedure to perform the refund transaction that adds the refund value to the member's

Navy Cash closed-loop account (see paragraph 8.4.6). This process is known as refund liquidation.

(4) The Disbursing Officer retains the liquidated refund chit and forwards it to the private mess treasurer at the end of the business day for follow up action.

(5) On the day the refund is liquidated and after receiving the liquidated refund chit from disbursing, the treasurer will note the date of liquidation on the original refund entry in the Refund Control Log.

(6) On the day the refund is liquidated, the refund amount will be reported in the Navy Cash Private Mess Daily Transaction Detail Report as a negative number associated with the member's name and Navy Cash account number, reducing the overall sales amount for the day (see paragraph 4.17.3 of this SOP for an example report).

d. The treasurer will retain the Private Mess Refund Control Log for three years for reconciliation and audit purposes.

e. The treasurer will maintain an audit trail on refund chits by recording the status of issued refund chits in the Private Mess Refund Control Log. The treasurer will note whether the refund was liquidated, reissued, or canceled (reversed) and date of occurrence on every original refund record entry.

f. To alleviate holding unliquidated refunds for excessive periods of time, members are required to liquidate refunds at the disbursing office within 2 working days. After 30 days, the treasurer has the option to reverse or cancel unliquidated refunds. The treasurer will note the reason for the reversal in the Refund Control Log and will cross reference the reversal entry to the original refund entry. The treasurer will also record the refund reversal in the Record of Collections as a refund reversal with appropriate reference to the original Record of Expenditures entry to facilitate audits.

g. In the event that a refund is liquidated after the treasurer reversed (canceled) the refund, the refund can be reentered in the Refund Control Log to bring records into balance. Prior to reentering a refund, the treasurer must confirm that the refund had been previously canceled (reversed) by reviewing the Private Mess Refund Control Log. The treasurer must also reenter the refund in the Record of Expenditures with appropriate reference to the original and reversal entries.

h. If a refund chit is lost or destroyed prior to liquidation, the treasurer can reissue the refund chit to the member. Prior to reissuing a refund chit, the treasurer must confirm that the original refund chit had not been previously liquidated or canceled by reviewing the status of the refund in the Refund Control Log.

i. The treasurer must consider the status of unliquidated refunds when determining whether actual collections equal recorded collections during end of day reconciliation (see the end of day reconciliation section below).

4.8 Payment of Mess Expenses (flowers, gifts, etc.)

4.8.1 On Board Ship

Aboard ship, the treasurer makes purchases with the private mess merchant Navy Cash card e-purse feature in the same manner that individual crewmembers purchase items on the ship.

4.8.2 Ashore

Ashore, the treasurer uses the private mess merchant Navy Cash card debit function (open-loop account) to make purchases at 23 million locations worldwide in the same manner that individual crewmembers purchase items ashore.

4.8.3 Record of Expenditures

Whether purchases are made ashore or on board ship, the treasurer must enter the transaction in the Record of Expenditures, in accordance with existing procedure, annotating 'NC' in the purpose field.

4.9 Transfer Funds Between Mess Checking Account and Navy Cash Accounts

a. Funds transfers can be accomplished on board ship at a Navy Cash Kiosk. Funds can be transferred to and from the private mess merchant Navy Cash closed-loop and open-loop accounts and the bank or credit union accounts that were associated with the Navy Cash accounts during enrollment. It is imperative for private mess treasurers to use the appropriate "food" or "dues" merchant Navy Cash card in order to maintain the separation of funds discussed in paragraph 4.3 of this SOP.

b. Follow the directions that are displayed on the screen of the Navy Cash Kiosks located on the ship or provided over the telephone from the Navy Cash CSC representative.

c. A funds transfer is simply the internal movement of cash on hand between accounts. Therefore, no entry is required in the Record of Collections or Expenditures, and the daily and monthly Navy Cash reports (see paragraph 4.17 of this SOP for example reports) will not show funds transfers.

4.10 Private Mess Bill Payment to FSO

4.10.1 Subsisting From General Mess

a. The FSO completes the NS 1046(s) for the cash sale of meals to the mess, indicating the total number of breakfasts, lunches, and dinners consumed by all members and guests in accordance with existing procedures.

b. The FSO computes the total private mess bill based on the meal consumed counts (NS 1046) and standard meal cost rates and presents an invoice (DD 1149) to the mess treasurer in accordance with existing procedures.

4.10.2 Private Mess

a. The FSO computes the private mess bill based on the cost of food consumed (transferred to the private mess from the general mess) documented on Food Item Request/Issue Document, NS 1282, in accordance with existing procedures.

b. The FSO presents an invoice (DD 1149) to the mess treasurer for the amount of food consumed by the mess in accordance with existing procedures.

c. Whether the mess is subsisting or private, the treasurer verifies that the DD 1149 invoice from the FSO is correct. Any discrepancy is investigated and resolved in accordance with existing procedures.

4.10.3 Mess Bills Larger Than Card Limit.

If the mess bill amount is greater than \$10,000 (\$50,000 for the wardroom mess treasurer on CVNs, LHAs, and LHDs), the mess treasurer can make more than one payment with the private

mess food Navy Cash card following the procedures in the paragraph directly below or pay the FSO with a check drawn on their bank or credit union checking account in accordance with existing procedures (in which case NavyCash is not involved at all.

4.10.4 Mess Bills Smaller Than Card Limit.

If the mess bill amount is \$10,000 or less (\$50,000 or less for the wardroom mess treasurer on CVNs, LHAs, and LHDs), the mess treasurer can pay the FSO with the private mess food Navy Cash card. Payments must be made by the 15th of the month following the month of the sale, in accordance with existing procedure.

- a. The treasurer records the payment in the Record of Expenditure in accordance with existing procedure, annotating 'NC' in the purpose field, and reports to the FSO with the mess "food" Navy Cash card to make the payment.
- b. The FSO (operator) keys the mess bill amount into a properly logged-in POS device.
- c. The treasurer inserts the "food" Navy Cash card into the POS, enters the PIN and presses the "OK" key to complete the transaction.
- d. The POS deducts the sale amount from the mess Navy Cash card and records the transaction for download to the Navy Cash system at the end of the business day.

4.11 Handling of Official Representation Funds (ORF)

In situations where the ship sponsors a special event, such as a change of command, the private mess may receive ORF under a special Line Of Accounting (LOA) to reimburse the mess for expenses incurred for hosting the special event.

Under procedures prior to Navy Cash, the treasurer prepares a DD 1149 that cites the LOA and presents it to the disbursing office. Disbursing issues an advance payment either by check or cash to the treasurer, which is then used to pay for the expenses of the event.

Navy Cash does not affect the existing ORF handling procedure but provides an option to the treasurer. If the funds issued by disbursing are \$10,000 or less (\$50,000 or less for the wardroom mess treasurer on CVNs, LHAs, and LHDs). the treasurer can have disbursing add the advance ORF funds to the closed-loop account on the private mess Navy Cash card (a standard check/cash to chip transaction). Or, the funds can loaded directly to the open-loop account on the card. The treasurer can then use the Navy Cash card to pay some or all of the special event expenses.

4.12 End-of-Day Procedure

- a. The treasurer/operator logs off the Navy Cash system.
- b. The private mess business is secured and disbursing is notified.
- c. The Disbursing Officer initiates Navy Cash end of day processing.
- d. Each day, the treasurer/operator should review the daily Private Mess Navy Cash Merchant Sales Summary Report for accuracy (see paragraph 4.17.1 of this SOP for a sample report). The Merchant Sales Summary Report can be generated at the Navy Cash workstation in the disbursing office by entering the correct start and end dates in the "View Reports" link in the Navy Cash application (see paragraph 8.4.22). *In Navy Cash, all dates and times are recorded and reported in Greenwich Mean Time (GMT) (Coordinated Universal Time (UTC)).* The more detailed Non-Vending Sales Report, MSO Summary Report, and MSO Detail Report can be generated in the same way.

e. The treasurer/operator should also receive a Private Mess Daily Transaction Detail Report for reconciliation and management purposes. Successful processing of the EOD batch (round trip) sends a series of reports to the ship from the shore side. These shore reports are generated automatically when the Disbursing Officer initiates end of day processing, and, when they are received, the Navy Cash system places them into a shore reports directory by date, with one sub-directory for each report date. An example of this report is contained in paragraph 4.17.3 of this SOP. Again, in Navy Cash, all dates and times are recorded and reported in Greenwich Mean Time (GMT) (Coordinated Universal Time (UTC)).

f. The Disbursing Officer can print these reports on a printer in the disbursing office. Alternatively, the Disbursing Officer can download the report to a floppy disk that can be provided to the treasurer who can then store and print the file on the private mess computer system. For either alternative, the treasurer must coordinate with the Disbursing Officer to receive the reports on a daily basis.

4.13 Daily Reconciliation of Navy Cash

a. Reconciliation is the process of confirming that actual Navy Cash funds collected equals recorded Navy Cash funds collected (less refunds) for the day and, if these amounts do not equal, to determine and correct the cause of the out of balance condition. The treasurer must reconcile daily.

b. For the purposes of the daily reconciliation procedure, actual Navy Cash funds collected are reported in the Merchant Sales Summary Report. The treasurer calculates recorded Navy Cash funds collected based on daily entries recorded in the Record of Collections, Record of Expenditures, and the Private Mess Refund Control Log.

c. To reconcile, the treasurer must first compute the total recorded collections for the day by adding Record of Collections entries for the day that have the 'NC' notation and subtracting refunds liquidated that day, shown in the Private Mess Refund Control Log and Record of Expenditures (with the 'NC' notation).

d. The treasurer then compares the computed recorded collections total to the actual collections amount shown on the Merchant Sales Summary Report (which includes any refunds liquidated that day). A reconciliation worksheet is provided in paragraph 4.17.6 of this SOP to assist the treasurer when conducting the reconciliation process.

e. If actual Navy Cash collections and recorded Navy Cash collections balance (equal), the reconciliation is successful and complete.

f. If actual collections and recorded collections do not balance, an error exists that must be investigated and corrected.

g. To identify an error, the treasurer should compare the more detailed Navy Cash reports which list every Navy Cash transaction performed that day to the Record of Collections, the Record of Expenditures, and the Refund Control Log to determine, through the process of elimination, which transactions are missing or were recorded at incorrect amounts. The Non-Vending Sales Report, MSO Summary Report, and MSO Detail Report can be generated on the ship at the Navy Cash workstation in the disbursing office. If the Navy Cash EOD process and round trip have already been completed, the General Mess Daily Transaction Detail Reports can also be retrieved from the shore reports directory (see paragraph 8.4.21) on the Navy Cash workstation (see paragraph 4.17.3 for a sample report).

h. Probable error conditions and corrective actions:

(1) Condition: The detailed Navy Cash report shows a collection or refund transaction but a corresponding entry in the Record of Collections or Record of Expenditures does not exist. Corrective Action: The treasurer will first confirm that the collection or refund reported on the Navy Cash report is correct. If correct, the treasurer will make a corresponding entry in the Record of Collections or Expenditures. If incorrect, the treasurer will reverse the collection by issuing a refund to the member in the amount of the original erroneous collection in Navy Cash.

(2) Condition: The detailed Navy Cash report shows a collection transaction but recorded at an amount different than what is recorded in the Record of Collections. Corrective Action: The treasurer will determine the correct amount for the transaction and, if the correct transaction amount is greater than the amount collected, the Record of Collections will be corrected and the treasurer will contact the member and request payment of the difference in Navy Cash. If the correct transaction amount is less than the amount collected, the Record of Collections will be corrected and the treasurer will refund the difference to the member in Navy Cash.

(3) Condition: The detailed Navy Cash report shows a refund transaction but recorded at an amount different than what is recorded in the Record of Expenditures. Corrective Action: The treasurer will determine the correct amount for the refund transaction and, if the correct transaction amount is greater than the amount refunded, the Record of Expenditures will be corrected and the treasurer will refund the difference to the member. If the correct refund amount is less than the amount refunded, the Record of Expenditures will be corrected and the treasurer will contact the member and request repayment of the difference in Navy Cash.

(4) Condition: The Record of Collections shows a collection transaction occurred on the day of reconciliation but a corresponding transaction was not been recorded in the detailed Navy Cash report. Corrective Action: The treasurer will confirm that the collection entry in the Record of Collections is correct. If correct, payment was never made and the treasurer must contact the member and request payment in Navy Cash. If incorrect, the treasurer will reverse (cancel) the entry in the Record of Collections.

(5) Condition: The Record of Expenditures and/or the Refund Control Log shows a refund transaction was liquidated on the day of reconciliation but a corresponding transaction has not been recorded in the detailed Navy Cash report. Corrective Action: The treasurer will confirm that the refund entries and liquidation annotations in the Record of Expenditures and Refund Control Log are correct. If correct, the refund was not liquidated by the member on the day of reconciliation. The liquidation annotations on the Record of Expenditures and Refund Control Log must be adjusted to reflect this fact. If the entries are incorrect, the treasurer will reverse (cancel) the refund entry in the Record of Expenditures and Refund Control Log.

i. The treasurer will maintain daily reports and reconciliation worksheets for 30 days or until the monthly reconciliation is completed.

4.14 End-of-Month Reconciliation Procedure

a. Monthly reconciliation is the process of confirming that actual Navy Cash funds collected for the month equals recorded Navy Cash funds collected (less refunds) for the month and, if these amounts do not equal, to determine and correct the cause of the out of balance condition.

b. For the purposes of the monthly reconciliation procedure, actual Navy Cash funds collected are reported in the Navy Cash Merchant Sales Summary Report for the month, an

example of which is contained in paragraph 4.17.2 of this SOP. The treasurer calculates recorded Navy Cash funds collected based on entries recorded in the Record of Collections, Record of Expenditures, and the Private Mess Refund Control Log.

c. To reconcile, the treasurer must first compute the total recorded collections for the month by adding Record of Collections entries for the month that have the 'NC' notation and subtracting refunds liquidated that month, shown in the Private Mess Refund Control Log and Record of Expenditures (with the 'NC' notation).

d. The treasurer then compares the computed recorded collections total for the month to the actual collections amount shown on the monthly Merchant Sales Summary Report (which includes any refunds liquidated that day). A reconciliation worksheet is provided in paragraph 4.17.6 of this SOP to assist the treasurer when conducting the reconciliation process.

e. If actual Navy Cash collections and recorded Navy Cash collections balance (equal), the reconciliation is successful and complete.

f. If actual collections and recorded collections do not balance, an error exists that must be investigated and corrected.

g. To identify an error, the treasurer must compare the Record of Collections, Record of Expenditures, and Refund Control Log to a detailed listing of Navy Cash transactions for the month. The process of investigation and correction is the same as described in paragraph 4.13 above. To assist in this reconciliation, the more detailed Navy Cash Non-Vending Sales Report, MSO Summary Report, and MSO Detail Report can be generated in the same way as the Merchant Sales Summary Report (see paragraph 4.12.d above). If the final Navy Cash EOD process and round trip for the month have already been completed, the Private Mess Monthly Transaction Detail Reports can also be retrieved from the shore reports directory (see paragraph 8.4.21) on the Navy Cash workstation (see paragraph 4.17.4 for a sample report).

h. Merchant Settlement Reports. Merchant settlement reports list all Navy Cash deposits made to the specified bank or credit checking account or merchant open-loop account and can be used to assist in reconciling the account. These shore reports are generated automatically at the completion of each end-of-day round trip and placed into a shore reports directory by date (see paragraph 8.4.21). A sample report is contained in paragraph 4.17.5. In Navy Cash, all dates and times are recorded and reported in Greenwich Mean Time (GMT) (Coordinated Universal Time (UTC)).

4.15 Navy Cash Effect on the Monthly Financial Operating Statement, NS 1367

For financial reporting, Navy Cash should be accounted for like cash (currency). Throughout the month, all mess expenditures were entered on the Record of Expenditures and all collections were entered on the Record of Collections, whether actual cash or Navy Cash was used. Therefore, the NS 1367 should be prepared in accordance with the P486 Volume II by combining Navy Cash transactions with actual cash transactions in the receipts and expenditures fields in the Cash Account section.

4.15.1 Receipts

Include all cash and Navy Cash transactions recorded in the Record of Collections for the month.

4.15.2 Expenditures

Include all cash and Navy Cash transactions recorded in the Record of Expenditures for the month.

4.15.3 Cash Brought Forward (Cash on Hand)

Includes Navy Cash funds held in the private mess open-loop and closed-loop accounts in addition to cash on account in the mess bank or credit union checking and savings accounts. Actual Navy Cash deposits to these commercial accounts will occur as stated in Note 1 at the beginning of Chapter 4 of this SOP.

4.16 Contingency Operations

1. Short-Term Outage.

a. The POS in the private mess operates in the normal mode and is connected to the Navy Cash server through the ship's LAN. If connectivity to the server is expected to be a problem, an operator should remain logged on to the POS at the end of the day so that Navy Cash payments for meals and dues can be processed offline the next day even if connectivity is not available. A POS in normal mode operating offline can store about 741 transactions before it is full and can no longer process transactions.

b. When connectivity to the Navy Cash server is restored, sales receipts stored on the POS are forwarded automatically to the Navy Cash server. This download starts when the LAN connection to the server is made and the asterisk symbol on the POS screen disappears, usually within a minute. The "!" symbol on the POS screen remains displayed until all transactions have been downloaded to the server.

2. Localized Network Outage.

a. The POS must be online to the Navy Cash server through the ship's LAN for an operator to log on. If the network is down at the beginning of the day, the operator will not be able to log on to the system to conduct business. However, if the outage is localized to the area of the general mess, an operator can go to the disbursing office and sign out a spare POS to use in the portable mode.

b. Operator Log-On. The operator can log on to the portable POS (and the merchant can be set to private mess food and dues) at any operating POS network connection point or download box (in the disbursing office, MWR, post office, or other locations set up during the Navy Cash installation). The operator disconnects the POS device currently in operation (if any) and connects the portable POS. Once connected, the offline log-on procedure is the same as the online procedure. After log-on is complete, the operator can disconnect the data cable and proceed to operate the POS in the offline mode. If a POS was disconnected to permit the log-on, it should be reconnected at this time. The operator should make sure that the portable POS has fresh batteries and that additional batteries are readily available.

c. Download Sales Transactions. If the network outage is localized, the sales receipts stored on the portable POS can be downloaded at the end of each day at one of the POS connection points or download boxes as described in paragraph (b) above.

3. Long-Term Outage. In the unlikely event that connectivity to the Navy Cash server is down for a lengthy period of time (days, weeks), the private mess can, with the authorization of the Commanding Officer, revert to accepting cash and/or check, following the same procedures used prior to implementing Navy Cash.

4.17 Private Mess Reports and Forms (examples)

In Navy Cash, all dates and times are recorded and reported in Greenwich Mean Time (GMT) (Coordinated Universal Time (UTC)).
