

Navy Cash Training

Sales Unit 1:

Sales and Other Merchants

Objectives

- Discuss how to obtain Operator IDs
- Explain Rules of Behavior (ROB) and FS Form 2888
- Demonstrate and explain MT 280 interface
- Discuss Disbursing Application functions related to sales operations
- Explain Merchant Accounts for Sales and Food Service
- Discuss daily business practices, EOD procedures, and processing refunds

Obtaining an Operator ID

- All MT 280 users are required to be enrolled in Navy Cash
- Each user must have a unique 4-digit Operator ID within the NC Disbursing Application
 - *Do not share Operator IDs*
- Disbursing will assign all Operator IDs
- Operator IDs are not reusable. Once an Operator ID is assigned and that operator leaves the ship, the relief must be assigned a totally different operator ID
- Operator ID must not begin with zero (0)

Rules of Behavior (ROB)

■ Rules of Behavior (ROB)

- All personnel who operate a Navy Cash Point of Sale device are required to sign their Rules of Behavior
- The ROB is signed electronically in Disbursing
- By signing the ROB, they acknowledge that they have read, understand, and agree to abide by the rules
 - » *NC Operators must only conduct official business within Navy Cash*

Rules of Behavior (ROB)

NOTICE AND CONSENT

When you use the Navy Cash system, you are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS, which includes any attached device, you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, and personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG-authorized purpose.
- This IS includes security measures, e.g., authentication and access controls, to protect USG interests—not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential.

RULES OF BEHAVIOR FOR USERS OF NAVY CASH SYSTEM

1. These rules of behavior for users of the Navy Cash system delineate the responsibilities and the expected use and behavior of all individuals with user access to the Navy Cash system, defined as all computer hardware (including attached devices), software, and electronic files. By your signature below, you indicate that you have read, understand, and agree to abide by these rules of behavior.
2. You must conduct only official, authorized business on the Navy Cash system. You must access only that data, control information, software, hardware, and firmware for which you are authorized access, and assume only those roles and privileges for which you are authorized. Do not introduce or use any unauthorized software, firmware, electronic files, or hardware.
3. As a Navy Cash operator, e.g., in the post office, CPO mess, ship's store, or disbursing office, you must be authorized as a user and be assigned a unique operator ID number at the disbursing office. In the ship's store, once operator IDs are established in Navy Cash, they must be entered into the Retail Operations Management (ROM) system. ROM and Navy Cash operator IDs must match for sales receipts to be reported properly.
4. Access to Navy Cash Disbursing Application workstations or laptops or to the Navy Cash server must be authorized at the disbursing office and is controlled by user name and password. Passwords created by the Disbursing Application for new users, or any other default passwords, must be changed at the disbursing office as soon as creation of the new user account is completed.
5. Passwords must be a minimum of 14 characters (15 characters for Sys Admin) and less than 16 characters in length and must begin with an alphabetic character and should use three of four character sets, i.e., upper-case letters, lower-case letters, numbers, and special characters.
6. Protect your password. Your password must be changed at the disbursing office every six months or when you suspect it may have been compromised or it appears in an audit document. Before you change your password, the Disbursing Officer will first verify your identity.
7. As an operator, you must log off your device or workstation when you are through working on the system. The next operator can then log on the system by entering his or her own password. Each operator must use his or her

Rules of Behavior (ROB)

own operator ID or user ID and password when operating the Navy Cash system. Protect devices or workstations from unauthorized access. Never leave a device or workstation unattended while logged into the system.

8. As a matter of policy, any PS who wants to perform any personal Navy Cash transactions in the disbursing office, for example, to add or cash out value or change a PIN, must contact the Disbursing Officer or Deputy.

9. Each calendar quarter, the ship's Cash Verification Team will generate card reports for all Navy Cash Disbursing Application users to verify that no unauthorized deposits were made to their accounts since the last quarterly cash verification.

10. You must follow the procedures established for the proper handling and safeguarding of the Personally Identifiable Information (PII) associated with both Disbursing and Navy Cash operations to ensure the security and confidentiality of that information.

11. All cardholders in the Navy Cash Stored Value Card program are granted privacy protections under the Privacy Act of 1974 as amended. Release of information may be granted to DoD law enforcement agencies if the head of the agency has made a written request to the U.S. Department of the Treasury Bureau of the Fiscal Service. All materials requested shall be sent from the Bureau of the Fiscal Service. Privacy protected information may not be released without written consent from the Bureau of the Fiscal Service. This restriction applies to a court order of a competent jurisdiction including subpoena.

12. Ensure that all documents, equipment, system media, or other output containing PII are properly cleared, sanitized, marked, controlled, stored, transported, and destroyed based on sensitivity and need-to-know.

13. You must protect Navy Cash information and system resources from unauthorized access or occurrences of misuse, sabotage, tampering, denial of service, fraud, misappropriation, or release to unauthorized persons. Immediately report all such occurrences to the Disbursing Officer or Information Assurance Manager (IAM).

ACCEPTANCE

I have read the above Rules of Behavior for the Navy Cash System. By my signature below, I acknowledge and agree that my access to the Navy Cash system is covered by, and subject to, such Rules. Further, I acknowledge and accept that any violation by me of these Rules may subject me to administrative or civil and/or criminal actions and may result in the termination or suspension of my access to the Navy Cash system at any time without notice.

Note:

- **MT 280 must be connected to LAN:**
 - To download transactions
 - To Log on or off

Short-Term Outage

- If connectivity to the server is expected to be a problem, an operator should remain logged-on to the MT 280 at the end of the day
 - This will allow operator to conduct business the next day
 - In Offline Mode, the MT 280 stores messages in the internal queue and uses an 8 GB SD Card as back-up storage

Card Access Device (CAD), SD Card, and SAM Chip

Card Access Device (CAD)

- Connects to the Navy Cash Server through ship's LAN
- Requires network connection to initially log in to the Navy Cash Server
 - If CAD loses connectivity to Navy Cash server, it can still process transactions offline
- Does not support entry of PIN

Secure Digital (SD) Card

- The SD Card
 - Provides a means of storing transactions when the CAD is offline (also installed on MT 280)
 - SD card used should be 8 GB

Secure Access Module (SAM)

- SAM is installed in MT 280s, Kiosks, and CADs
- DISBO must ensure each MT 280, Kiosk, and CAD has a SAM Chip, including spares
- The MT 280, Kiosk, and CAD use a SAM to interact with the chip on the Navy Cash card
- If a SAM is not present, the MT 280, Kiosk, or CAD will not work, and an out-of-service error is displayed on the screen
