

leakproofness tests for liquid hazardous materials, hydrostatic pressure tests for metal, plastic, and composite containers, cooperation tests for bung-type wooden barrels, and additional testing for packaging intended to contain infectious substances. The specific tests required may vary based on the outer and inner packaging material used.

(2) *Additional Test Reports (Reporting)*: This information collection consists of the requirement to prepare and maintain a test report after each design qualification test or periodic retest of a packaging. The test report must be available to the user of the packaging or a representative of the DOT upon request and includes details such as the date, name, and address of

the testing facility, packaging design type, maximum capacity, characteristics of test contents, and test descriptions and results.

(3) *Test Reports (Recordkeeping)*: This information collection requires that test report must be made available to a user of a packaging or a representative of the DOT, upon request. The test report includes information such as: the date, name, and address of the testing facility; a description of the packaging design type; the maximum capacity; characteristics of test contents; and test descriptions and results.

(4) *Closure Instructions (Reporting)*: This information collection consists of the requirement for the manufacturer or certifier of non-bulk packaging to create closure instructions, in accordance with § 178.2(c). These instructions indicate

the means of closure with which the package was tested and ensure that any subsequent shipper maintains the same level of safety when the package is closed for transportation of hazardous materials.

(5) *Closure Instructions (Recordkeeping)*: This information collection requires that the manufacturer or other person certifying compliance, along each subsequent distributor of the packaging, provide closure instructions to each person to whom the packaging is transferred, as well as any representative of the DOT, for inspection.

BILLING CODE 4910-60-P

DEPARTMENT OF THE TREASURY

Fiscal Service

Notice of Rate To Be Used for Federal Debt Collection, and Discount and Rebate Evaluation

AGENCY: Bureau of the Fiscal Service, Fiscal Service, Treasury.

ACTION: Notice of rate to be used for Federal debt collection, and discount and rebate evaluation.

SUMMARY: The Secretary of the Treasury is responsible for computing and publishing the percentage rate that is used in assessing interest charges for outstanding debts owed to the Government (The Debt Collection Act of

1982, as amended). This rate is also used by agencies as a comparison point in evaluating the cost-effectiveness of a cash discount. In addition, this rate is used in determining when agencies should pay purchase card invoices when the card issuer offers a rebate. The percentage rate generally is calculated on an annual, calendar year basis; however, quarterly adjustments are made to the rate if the annual average of the method used to calculate it results in a change of 2 percent or more. Notice is hereby given that such an adjustment is being implemented, and the applicable rate for April through December 2023 is 3.00 percent.

DATES: April 1, 2023, through December 31, 2023.

FOR FURTHER INFORMATION CONTACT:

Department of the Treasury, Bureau of the Fiscal Service, Disbursing and Debt Management, E-Commerce Division (LC-RM 349B), 3201 Pennsy Drive, Building E, Landover, MD 20785 (Telephone: 202-874-9428).

SUPPLEMENTARY INFORMATION: The rate reflects the Current Value of Funds to the Treasury for use in connection with Federal Cash Management systems and is based on investment rates set for purposes of Public Law 95-147, 91 Stat.1227 (October 28, 1977). The Treasury Office of Debt Management provides the annual Interest Rate Factors used in determining the Current Value of Funds Rate, which are based on weekly average of the Effective Federal Funds Rate, less 25 basis points for the 12-month period ending every September 30. The Current Value of Funds Rate is rounded to the nearest whole percentage and becomes effective each January 1.

Quarterly revisions are made if the annual average, on a moving basis, changes by 2 percentage points or more. The previous notice of rate to be used for Federal debt collection, and discount and rebate evaluation, dated November 21, 2022, announced the rate of 1.00 percent for calendar year 2023. However, with the quarter ending March 30, 2023, the 12-month moving average investment rate increased by 2 percent. Therefore, Treasury is revising the Current Value of Funds Rate for the remainder of calendar year 2023.

The percentage rate to be applied during the period April 1, 2023, through December 31, 2023, is 3.00 percent.

Authority: 31 U.S.C. 3717.

Linda Claire Chero,

Assistant Commissioner, Disbursing and Debt Management and Chief Disbursing Officer.
