# Debt Forgiveness Appropriation versus No Appropriation

## Background

On occasion, Congress enacts into Public Law an appropriation for the forgiveness of debt. When that occurs, the Department of Treasury processes a Treasury warrant, and subsequently, the receiving entity must repay the debt back to the Bureau of the Fiscal Service. This may occur in general funds, revolving funds, special funds, and trust funds (revolving and non-revolving). This activity does not currently occur in credit reform accounts.

Appropriation language for the forgiveness of debt is different than the typical appropriation language provided by Congress. Forgiveness of debt appropriation do not provide new budgetary resources from which to obligate. Instead, the budget authority granted is immediately used to repay the debt, resulting in zero budgetary resources.

When appropriations are enacted pertaining to borrowings by special or non-revolving trust funds, a Treasury appropriation warrant will be processed into a specific agency general fund expenditure account, and then subsequently transferred to the applicable special or non-revolving trust fund expenditure account.

In addition, there have been instances where a Public Law is enacted for the forgiveness of debt without receiving an appropriation. A negative surplus warrant is processed when the legislation doesn't explicitly state that there is an appropriation received for the debt forgiveness.

### Debt Forgiveness with an Appropriation Warrant

# Debt Forgiveness Appropriation versus No Appropriation

## SPECIAL AND NON-REVOLVING TRUST FUND EXPENDITURE ACCOUNTS WITH BORROWING AUTHORITY (APPROPRIATION WARRANT)

### Attachment B – Special or Non-Revolving Trust Fund Expenditure Accounts with Borrowing Authority

#### Background

When appropriations are enacted pertaining to borrowings by special or non-revolving trust funds, a Treasury appropriation warrant will be processed into a specific agency general fund expenditure account, and then subsequently transferred to the applicable special or non-revolving trust fund expenditure account. This general fund expenditure account is sometimes referred to as a “feeder” account. Although the concept of feeder accounts has been predominantly phased out, it still exists for debt forgiveness situations. Prior to the activity occurring, the agency must request that Treasury establish the proper general fund expenditure account and special or trust fund available receipt account pertaining to the enacted legislation.

#### Scenario Assumptions

- This example illustrates an agency General Fund Expenditure Account Treasury Account Symbol (TAS) 12X0001, and Trust Fund Expenditure TAS 12X8000. (Available Trust Fund Receipt Account TAS 12X8000.00X is not shown in this illustration, because USSGL presentations involving ‘available’ trust fund receipt and expenditure accounts are combined and shown in the expenditure account only.)
  - TAS 12X0001 and 12X8000 are not dedicated collection funds
  - TAS 12X0001 and 12X8000 has definite borrowing authority
- The Budget Enforcement Act (BEA) category for illustration purposes is Discretionary.
- The beginning trial balances of the agency general fund are zero.
- The beginning trial balances of the agency trust fund expenditure account carry forward balances of borrowing authority (unobligated) and outstanding debt.

Debt Forgiveness Appropriation versus No Appropriation:

Special and Non-Revolving Trust Fund Expenditure Accounts  
With Borrowing Authority (No Appropriation - Negative Surplus  
Warrant)

# Debt Forgiveness Appropriation versus No Appropriation

## SPECIAL AND NON-REVOLVING TRUST FUND EXPENDITURE ACCOUNTS WITH BORROWING AUTHORITY (NO APPROPRIATION WARRANT)

### Attachment D – Special or Non-Revolving Trust Fund Expenditure Accounts with Borrowing Authority

#### Background

When cancellation of debt is enacted pertaining to borrowings by special or non-revolving trust funds, a Treasury negative surplus warrant will be processed into a specific agency general fund expenditure account, and then subsequently transferred to the applicable special or non-revolving trust fund expenditure account. This general fund expenditure account is sometimes referred to as a “feeder” account. Although the concept of feeder accounts has been predominantly phased out, it still exists for debt forgiveness situations.

#### Scenario Assumptions

- This example illustrates an agency General Fund Expenditure Account Treasury Account Symbol (TAS) 12X0001, and Trust Fund Expenditure TAS 12X8000. (Available Trust Fund Receipt Account TAS 12X8000.00X is not shown in this illustration, because USSGL presentations involving ‘available’ trust fund receipt and expenditure accounts are combined and shown in the expenditure account only.)
  - TAS 12X0001 and 12X8000 are not dedicated collection funds.
  - TAS 12X0001 and 12X8000 has definite borrowing authority.
- The Budget Enforcement Act (BEA) category for illustration purposes is Discretionary.
- The beginning trial balances of the agency general fund are zero.
- The beginning trial balances of the agency trust fund expenditure account carry forward balances of borrowing authority (unobligated) and outstanding debt.
