Also post USSGL TC-A122 if authority was previously anticipated and apportioned or USSGL TCA123 if authority was previously anticipated in programs exempt from apportionment. Fiduciary deposit funds would not record the budgetary entry. See USSGL TC-A195, TC-C109 or TC-C140 to record the collection of interest received on the maturity. See USSGL TC-C128 to record the maturity of a U.S. Treasury Zero Coupon Bond issued by the Bureau of the Public Debt. C430  To record an old motor vehicle that was traded in for a new motor vehicle using the direct method.

**Comment:** This entry is to show a trade-in only. An entry for indirect cost is not included. This is the way the Department of Defense accounts for repairable items involving trade-ins. Accounts receivable represents the cash amount the vehicle procurer will receive from the customer. Inventory held for repair represents the value of an asset after it is repaired (value of a similar new asset). Other financing source represents fair market value of the old vehicle. Other financing source was used instead of revenue from goods sold due to a trade-in, which is not a budgetary resource. Inventory allowance represents the estimated repair cost of the damaged vehicle.

C610 To record the sale or disposition of personal property collected for replacement property.

Comment: Sales proceeds on disposed personal property collected for a replacement property will have no budgetary entry until the obligation is subsequently incurred for the replacement property. In most cases, the proceeds will only be available for acquisition of the replacement property in the fiscal year that the old property was sold, then for 1 fiscal year thereafter. This entry may not be applicable to some agencies that have specific language in their legislation that allows them to keep the proceeds beyond 2 years. See USSGL implementation guidance, "Disposition of Personal Property" on the USSGL Web site. Also review CFR 41, chapter 101 and GAO's Policy and Procedure Manual, dated May 1993, pages 7.5-8.9.

D134  To record the delivery of goods and services ordered in a prior year and accrue a liability. Expended authority is less than the original obligation and the authority is not expired.

Comment: The offset to downward adjustments to undelivered orders is anticipated recoveries. If such a transaction causes an abnormal credit balance, the Office of Management and Budget's approval for use of resources is required. When anticipated accounts are not used, credit USSGL account 445000 or credit USSGL account 462000 if funds are exempt from apportionment. Also post USSGL TC-B134 if funded by a direct appropriation. Also post USSGL TC-A122 if recoveries were previously anticipated and apportioned or USSGL TC-A123 if recoveries were previously anticipated in programs exempt from apportionment. The payroll and related benefit liabilities in this transaction are only for work-in-process. For other payroll-related transactions, see USSGL TCs-E104 through E117. Also post USSGL TCs G120, G122, and G124 to track purchases.
